管理研究所博士班	乙組	管理資訊系統	6月21日	第一節	共一頁

註：考生可否攜帶計算機或其他資料作答，請在備註欄註明（如未註明，一律不准攜帶）

一. 問答題 100% (每題 25 分)

1. Employers insist upon their right to computers and other electronic devices to monitor employees while the employees are on the company premises or on company time. Employees in many organizations resist the practice. What are the arguments of employers? What are the arguments of employees?
2. A credit card company discovered one morning that three of its 15 million records were altered. Although it was later found that no other damage was done and that the company could fix the records from backup files, this incident caused a damage of several thousand dollars. Why is this the true?
3. What are the different conversion strategies to move from an old IS to a new IS? What are the pros and cons of each strategy?
4. Explain the following concepts in the context of IS planning: flexibility, compatibility, connectivity, scalability, and standardization.
