II. Reading Comprehension (20%)

A: Although 80% of Australians live near cities, the cities are not as large as those in some other countries. Most people live in houses in suburbs – not in apartments. The suburbs usually have their own churches, schools, and shopping centres. They also have recreational facilities. In large cities, like Sydney, the suburbs are often far from the centre of town. Because many people commute to work, traffic is slow and there are many traffic jams.
